

# Bedder Tumbler

The Ultimate One Pass Bedding Tool

The House Bedder Tumbler prepares a firm level seedbed and uniform furrows while forming proper irrigation trenches all in one pass.

**Plows**

**Tumbler**

**Finishing Baskets**

### **Tumbler**

- Incorporates residue in to the soil while creating a firm level seedbed
- 24" diameter tumbler reduces the size of dirt clods
- 2-1/4" field replaceable shafts
- 3/8" thick tumbler reinforcement plates
- The tumbler is bounded by sixteen 1" diameter rods
- Tumbler support tube 3-1/4" x 5/8" wall tubing

### **Plows**

- Creates consistent clean furrows
- 1" x 3" hardened steel shanks with ruler markings for easy adjustment
- Heavy-duty 3 bolt clamp design
- Staylight super-duty plows; front and rear fully adjustable sweep height and pitch

### **Finishing Baskets**

- Final stage in sizing clods
- Create a firm, level bed with good texture
- Complete the bed preparation by ensuring finer soil particles are packed in the seed zone

### **Additional Features**

- Powder-coated paint finish
- Heavy-duty adjustable gauge wheels
- Grease lubricated bearings
- Transportation light and safety kit
- Wings over fold with lock feature for easier transport
- Category III and 4N hitches
- Replaceable, heavy-duty bushings
- 7" x 7" x 3/8" wall main frame
