

# Pulverizer

The Ultimate Seedbed Finishing Tool

The House Pulverizer has 3 essential sections that work together to create the perfect seedbed.

**Heavy-Duty Choppers**

**5-Bar Spike Harrow**

**Finishing Baskets**

### **Heavy-Duty Choppers**

- Aggressively size residue
- Level seedbed
- Break up the largest clods and toughest crust

### **5-Bar Spike Harrow**

- Evenly distributes the heavy residue
- Levels the bed
- Acts as the second stage in sizing clods

### **Finishing Baskets**

- Final stage in sizing clods
- Complete the bed preparation by ensuring finer soil particles are packed in the seed zone
- Create a firm, level bed with good texture

### **Additional Features**

- Heavy-duty frame built to hold up to the largest HP tractors
- Strong powder coated finish
- Heavy-duty grease bearings built for longevity
- Adjustable cast gauge wheels
- Heavy-duty bushings in critical pivot points
- Heavy-duty category III and IV hitches
- Transportation kit including lights, flashers and slow moving vehicle sign
- Available in 2 through 12 rows, handling all bed sizes
