

# Tobacco Row Conditioner

The Ultimate Row Conditioning Solution

The House Tobacco Row Conditioner loosens soil and reconditions tobacco seedbeds by creating deep furrows, forming sides and leveling the seedbed.

**Heavy-Duty Choppers**

**13" Bed Sweeps**

**Soil Diverters**

**Soil Control Shields**

### Heavy-Duty Choppers

- Aggressively size residue
- Level seedbed
- Break up the largest clods and toughest crust

### 13" Bed Sweeps

- Loosens existing beds for reforming

### Soil Diverters

- Ensures the seedbed sides are uniform
- Creates or reconditions existing furrows
- Removes excess soil from furrows
- Evenly levels furrows

### Soil Control Shields

- Complete the bed preparation by ensuring finer soil particles are packed in the seed zone
- Create a firm, level bed with good texture
- Packs in moisture for proper seed germination
- Adjustable with spring tension

### Spoon Sweeps

- Attach to Soil Control Shields for final furrow cleanout

### Additional Features

- Powder-coated paint finish
- Heavy-duty structural tubing
- Transportation light and safety kit
- Category III standard hitches
