

# ECS House Industries, Inc.

3720 Highway 1 South, Cherry Valley, Arkansas 72324

---

The ECS House Industries, Inc., Aquaculture Equipment is the most reliable and efficient equipment in the industry. With a complete line of electric aerators, and PTO & diesel engine driven aerators, ECS House Industries provides aquaculture farmers with a multitude of equipment options for every type of aquaculture application.

Aeration is a key component to any aquaculture operation, and the ECS House Aerators are industry proven as the best oxygen producing aerators. The ECS House Aerators are available from 2hp to 15hp and both single phase (up to 10hp) and three phase motors.

If you need portable aeration equipment, ECS House offers PTO driven portable aerators and portable aerators driven by self-contained diesel engines.

We have two parts & service locations for our customers so please contact us at our Manufacturing facility in Cherry Valley, Arkansas or our branch office in Inverness, Mississippi.
